# FIRE RETARDANT DOORS

Micasa presents a premium range of Fire Retardant Doors, engineered with sturdy wooden sections treated using advanced fire-resistant technology. Built with a solid core and hot-pressed wood, these doors comply with IS:3614 standards and are designed to withstand extreme fire conditions. Offering dependable protection for up to 60 or 120 minutes, they ensure safety and peace of mind during emergencies.

# FIRE RETARDANT DOORS

## SALIENT FEATURES

- Standards Compliance: Conforms to BS-476 (Part 20 & 22) and IS-3614 (Part 2)
- Fire Rating: 60 / 120 minutes certified protection
- Fireproof Core: Calcium silicate sheets for superior fire resistance
- Durability: Hot-pressed at high temperatures for long-lasting performance
- Precision: Calibrated shutters for perfect fit and function
- Protection: Termite, borer-proof, and shock-resistant
- Aesthetic Options: Available in a range of decorative laminates and veneers to complement interiors

# LAMINATED DOORS

At Micasa, we offer high-pressure laminate doors that blend style with durability. Crafted from premium laminates pressed onto calibrated flush shutters, these doors are designed to deliver long-lasting performance. Perfect for bedrooms and wet areas such as bathrooms and balconies, they bring together functionality and elegance to complement any interior.

## SALIENT FEATURES

- High-grade PVC foil or veneer pressed with vacuum technology
- Available in multiple design options: 2-panel, 4-panel, and 6-panel
- Can be custom-designed by architects as per client requirements
- Termite and borer-proof for long-lasting durability

# veneer door

At Micasa, our Veneer Doors are designed to bring together elegance, durability, and functionality. Available in two distinct ranges, each door is crafted to seamlessly blend with your home or office décor. Using advanced automated spraying machines, the veneers receive a flawless polish, while a protective coating enhances scratch resistance and ensures long-lasting durability. The result is a door that not only elevates interiors with its timeless beauty but also stands strong against daily wear and tear – making every entrance a statement of style.

#### Salient Features ✨

- **Wide range of decorative veneers to perfectly match interiors**
- **Enhanced water resistance for long-lasting performance**
- **Moisture-free kiln dry materials for added stability**
- **Seasoned & calibrated shutters ensuring precision fit**
- **100% Termite & borer proof protection**
- **Natural wood finish for an aesthetic and timeless appeal**

#### THICKNESS
